Dear Sacramento Decision Maker:

I care about how long I have to sit in traffic; time I could be with my family, time I could spend in my community, time I could spend doing just about anything other than staring at the car in front of me!

This year, a small step forward was made. For the first time, the 2005/2006 budget provides fully funds Proposition 42 and adds \$1.3 billion for transportation projects throughout the state. However, I believe more must be done to address the years of neglect our transportation system has experienced.

Traffic Relief has become a major issue in the state, and **must be made a priority in Sacramento.**

Please grant this issue the attention it deserves by providing more resources to road construction and repair. This will ensure that we all will be able to spend more time with our families, friends and in our communities.

Please join with us in our goal to: Get California Moving Again.

Thank you,
